

Our Green Journey!

April 2008
Recycling facilities installed

July 2008

Low Carbon electric vehicle purchased

August 2008

Recycling office paper saves 58 trees per year

January 2009

Green Team formed

April 2009

Joined Carbon Compensation scheme

June 2009

Waste to landfill reduced by 53%

Borehole Drilling

Borehole drilled for water extraction

July 2009

Visit from Green Tourism Business Scheme

Be Carbon Neutral
Our BIG goal!
(target 2012)

March 2008

Water Saving devices installed

ISO Accreditation
(target 2011)

Environmental Management accreditation

Go for Gold!

(target 2010)

Green Tourism Assessment

Become Interactive
(target 2010)

Wildlife trail opens

August 2007

Our journey begins! A Habitat Survey provides us with an initial insight into the natural biodiversity of Ribby Hall Village. We quickly identify 3 key areas to reduce our carbon footprint:-

- ENERGY USE
- WASTE PRODUCTION
- WATER USE
